

## Roket Wagner

August 3, 2013 - June 24, 2025

My son & I rescued a little ball of fur morkie we named Roket on 8/3/2015 which was his 2nd birthday.

He came running to Dave as soon as he opened the kennel. They spent a lot of time together in a short time which included going for walks. I lost my son to cancer 5/1/2016. Rocket was a Godsend he saved me! He loved walks, going for rides, and he could do a little dance. He knew when we were headed to the groomer & would get anxiety he didn't like the bath or hair cut. Once Stacey came out to get him he was ok. On 6/20/2025 he became I took him to vet & on 6/24/25 had to make a hard decision to put him to rest.

I stayed with him petting him with my head on him & his head on his favorite toy Lambchops! He gained his wings & joined my son. I miss him running to me when I came back. He would be in his bed at the window he would come running to the doorway.
